

QUICK-START GUIDE

Denon MC6000MK2

serato

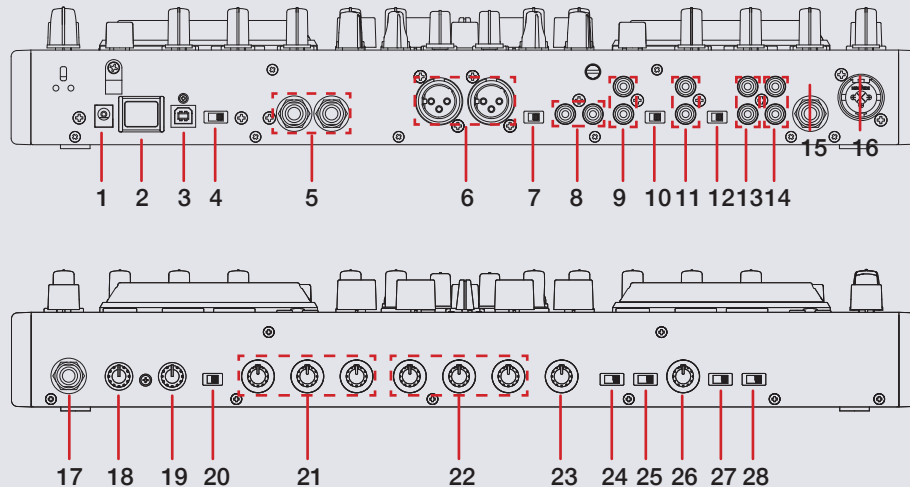

DJ INTRO

Installation and Setup

The Denon MC6000MK2 is a class compliant USB plug and play device for Mac, however requires drivers for Windows. You will find these on the installation CD provided with your Denon MC6000MK2.

NOTE: Please ensure you have the latest available drivers AND firmware updates, which may be required in order to be compatible with Serato DJ Intro. Please go to <http://serato.com/dj-intro/support>

1. Download and install the latest version of Serato DJ Intro from <http://serato.com/dj-intro/downloads>
2. Connect your Denon MC6000MK2 to an available USB Port.
3. Open Serato DJ Intro.

Using the Tool Tips

Click on the  icon to enable Tool Tips. This is located in next to the setup button in the top right hand corner of the screen. Tool Tips provide a handy way to learn the various features of Serato DJ Intro.

Move the mouse over a section of the screen to bring up a context sensitive tool tip. Holding the mouse over the  button with Tool Tips turned on will show you a list of all keyboard shortcuts.

For more information about how to use Serato DJ Intro, please go to our website www.serato.com or refer to the Serato DJ Intro Software Manual.

For more information on your controller, please refer to the hardware manual.

For further help, please contact support@serato.com or go to www.serato.com/dj-intro/support
